A cross that listens, a lotus that *holds*.

PRIMARY MARK · PLUM01A

The Primary Lockup

The mark weaves a medical cross, a woman's profile in negative space, a stethoscope formed by her flowing hair, and a lotus carrier behind it all — a single figure for clinical care, women's health and compassionate dialogue. Always presented in *Cream* on *Plum*.

FORMAT	SVG, 2500 × 2500
FILL	Plum #8C1E5C
COUNTER	Cream #F6F1EA
ASPECT	1 : 1 (square)
MINIMUM USE	32 px digital · 12 mm print
PREFERRED	Full-bleed square, centered

Room to *breathe*.

Clear space is measured in units of X, where X equals the width of the horizontal arm of the medical cross within the mark. No typography, imagery, or edge may enter this zone.

MINIMUM MARGIN	1X on all sides
PREFERRED MARGIN	1.5X on all sides
BETWEEN LOCKUPS	2X horizontal
NEAR TYPE	Match cap height to X

X = WIDTH OF CROSS ARM • ≈12.5% OF THE MARK'S HEIGHT

Plum is the whole *story*. Everything else is a quiet aside.

Hierarchy & voice

Lora is the single brand voice — a contemporary serif with honest proportions and a generous italic. Italics are reserved for the brand's reflective register: quotes, chapter openers, and the second half of any promise.

DISPLAY • 72-140

Listen *well.*

PULLQUOTE • 28-48

*“A conversation is a kind
of medicine.”*

SECTION • 32-48

On being heard.

BODY • 14-18

Therapy begins the moment we
agree to sit still together.

Do

Pair Lora Regular with Lora Italic. Use Italic sparingly. Set body at a measure of 55–70 characters. Keep tracking default; rely on weight and italics for hierarchy.

Four symbols, one *promise*.

A **The *Medical Cross***

The central plum cross anchors the mark in clinical authority — the universal symbol for healthcare, expertise and healing. It carries the wordmark and grounds the composition.

B **The *Female Profile***

Formed in negative space against the cross, a woman's face appears in quiet profile. A deliberate signal that the practice is rooted in women's health and shaped by a woman's point of view.

C **The *Stethoscope***

Her hair flows downward and becomes the tubing of a stethoscope, ending in a small circular chest-piece. A doctor who listens — both clinically and in conversation.

D **The *Lotus Carrier***

A blooming lotus holds everything — petals of purity, rebirth and holistic wellness that soften the clinical cross and set the tone: expert care, offered with compassion.

Sized for every *moment*.

The mark holds together when we *let it*.

- ✗ Don't place on busy backgrounds
Compromises legibility and tone.

- ✗ Don't stretch or distort
Lock the aspect ratio to 1:1.

- ✗ Don't rotate the mark
The figure must sit upright.

- ✗ Don't recolour to off-brand hues
Use only approved colourways.

- ✗ Don't add shadows or effects
No bevels, glows, outlines.

- ✗ Don't reproduce below 32 px
Reach for the monogram instead.

- ✗ Don't use low-contrast pairings
Keep plum and cream apart.

- ✗ Don't lower opacity as a style
The mark is either present or absent.

The mark, out in the *world*.
